Excerpt: .notice must be given of the intention to divide the examination to Professor G. J. Brush, Executive officer of the School, on or before June 15. In his preparation in Geometry the candidate should, as far as practicable, have suitable exercises in proving simple theorems and solving simple problems for himself. It is important, too, that he should be accustomed to the numerical application of geometric principles, and especially to the prompt recollection and use of the elementary formula? of mensuration. In Trigonometry he should be exercised in applying the usual formulas to a variety of simple reductions and transformations, including the solution of trigonometrical equations. Readiness and accuracy in trigonometrical calculations are also of prime importance to the candidate. If the use of logarithms is postponed in his preparation till Trigonometry is taken up (which is by no means necessary or advisable), he...
