It is often tangible and visible, as in a cluttered desktop or a room filled with clutter. There are times though when it pertains to something more intangible and far more personal, such as emotional, mental and spiritual clutter. The latter requires much introspection and strong personal will to overcome. The former is far easier dealt with, and that s what we will tackle more in this book.Surely, no one wants to live in a messy place, or have habits that mess up your everyday routines and even your relationships. Those who do live this way often end up feeling empty and still wanting something even as they fill their rooms with unnecessary material possessions.You may not know it, but you could be living that life right now.First hint: You have a closet filled with clothes, yet you only frequently and repeatedly wear 1/4 of its contents.Second hint: When you walk from your bedroom to the kitchen every morning, you have to kick or nudge something in the floor out of the way.Third hint: You haven t thrown anything out for the last three months.We could go on and on with these hints on whether or not you are surrounded by clutter, but that would be beside the point. What you need to do now is evaluate your environment and lifestyle....
