Excerpt from The Sugar Insect: Acarus Sacchari, Found in Raw Sugar No one, indeed, who has seen the filth and gross impurities extracted from the raw sugar in a refinery, could ever after use any thing but the refined article. Pure sugar is, indeed, almost as desirable an article of food as pure water; and all should be anxious to substitute the refined for the raw material. Bad water and raw sugar abound in animalcules and vegetable impurities; but pure water and refined sugar are free from such. There are many grocers who sell raw sugar under the notion that it is more economical to their customers than the refined article; and the latter parties (unaware of anything to the contrary) readily purchase the commodity under this impression. This is, however, a great mistake, which requires to be at once corrected. The finest qualities of raw sugar do invariably contain very gross impurities; but the cheapest kind of refined sugar is perfectly pure and whole some in every respect; and it can be obtained at the grocer's shop at as reasonable a price as the raw material - the refined article being invariably found to be genuine, in so far at least as its purity and wholesome qualities are concerned.
