Duke University Press, United States, 2006. Paperback. Book Condition: New. 226 x 155 mm. Language: English . Brand New Book. In some parts of the world spending on pharmaceuticals is astronomical. Several essays explore the inner workings of the emerging international pharmaceutical regime. One looks at the expanding quest for clinical research subjects; another at the entwining of science and business interests in the Argentine market for psychotropic medications. By bringing the moral calculations involved in the production and distribution of pharmaceuticals into stark relief, this collection charts urgent new territory...
