This item is printed on demand - Print on Demand Neuware - Project Report from the year 2011 in the subject Business economics - Business Management, Corporate Governance, printed single-sided, grade: 1,5, University of Cooperative Education Stuttgart; Horb, language: English, abstract: From the contemporary dominance of the shareholder value approach arises more and more the necessity to precisely detect its performance as shareholder value is broadly seen as a significant indicator determining a company's success or failure. However, measuring the performance of a company's shareholder value can be very challenging. Hence, the purpose of this paper is to deal with a well-known approach that enables businesses to detect its shareholder value performance: Economic Value Added (EVA). The thesis discusses the correlation between EVA and shareholder value, it further outlines its main drivers. In the second part, the paper elaborates on the specific links of the EVA approach to a regional Sales department and identifies the department's main leverages on EVA. In order to detect the influence of the main operative decisions on EVA, the thesis introduces the key figure Effect-on-EVA. The applicability of Effect-on-EVA is shown...
