

Northwestern lancet Volume 23

By -

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 324 pages. Dimensions: 9.7in. x 7.4in. x 0.7in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1903 Excerpt: . . . six cases, two primary and four recurrent; first, primary, stopped growing after four exposures; two with three exposures; two with three exposures and one-half smaller. Of the recurrent, one died after a few treatments; second, the small nodules and discharge stopped, three treatments and then operated on, no recurrence as yet. Pusey reports one recurrent cure in five months; second, recurrent, cured in three months; third, recurrent cured in two months; three cases with no results. Coley11 reports twenty-one cases; in three cases the nodules were gone in a few weeks, but recurred. The x-ray did not prevent recurrence in two cases that were treated right after operation. Dr. Morton in a very valuable paper which will be found in the Medical Record of May 30, 1903, and which everyone should read, reports a series of twelve breast cases as follows: First, breast case, tumor, primary,...
