INFORMATION THEORY (PAPERBACK)

Dover Publications Inc., United States, 1991. Paperback. Condition: New. New edition. Language: English . Brand New Book. Developed by Claude Shannon and Norbert Wiener in the late 1940s, information theory, or statistical communication theory, deals with the theoretical underpinnings of a wide range of communication devices: radio, television, radar, computers, telegraphy, and more. This book is an excellent introduction to the mathematics underlying the theory. Designed for upper-level undergraduates and first-year graduate students, the book treats three major areas: analysis...
