On Lie's Solution of a Partial Differential Equation of the First Order. By A. C. Dixon, Sc.d., Trinity College. 1. The present paper gives an account and a proof of Lie's method of solving a differential equation in one dependent and any number (including unity) of independent variables. The arrangement of the proof is such as to facilitate the examination of certain cases of exception. Such are afforded by the tac-locus and cusp-locus of the ordinary theory with one independent variable, and their analogues, and also by an extensive class of equations in which the linear partial form is...
