Createspace Independent Publishing Platform, United States, 2014. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.The present book describes a working Inertial Propulsion Device delivering a 30 gram thrust magnitude proof positive mechanical pendulum tests measurement displayed in a video; this is the only working calibrated pendulum test video of a small 1.8kg 150watt inertial propulsion device available on the internet today, from and youtube ggutsche1 PC130005. This publication explores Inertial Propulsion in view of the fascinating historical timeline and early discovery of mechanisms intriguing enigmatic behaviours leading to the present day understanding of inertial mass motion; it describes, in eye opening detail, how science has evolved from geometric analysis into the successful complex impulse/acceleration/energy analytical relation techniques used today by the worldwide highest sales volume, best liked Engineering Formula book published by McGraw-Hill, authored by the Kurt Gieck brothers. This study lays an undisputable logic foundation with 8 known mechanisms, with known derivations; this is correlated toward the fulfillment path of inertial propulsion s full potential, the analysis concludes with a rigorous mathematical and physical proof positive derivation leaning on Newton s own math derivation method of the pendulum, his own vector analysis, his own stated third law limitation, combined with modern complex domain analysis. Modern complex domain analysis means: an interwoven simultaneous multiple inertial mass motion complex timed variable energy cycle including dynamic breaking. The main intention of this publication is to describe the Inertial Propulsion method in the best foundation format available today. The engineering of the IP device is presented with 35 illustrations, 14 formula derivation, and highly detailed rigorous step by step proofs; at the same time, the Author restrains the level of complexity without sacrificing subject clarity, reality and certainty by logically sorting difficult...
